## RESEARCH INTERESTS

Labor economics, public economics, political economy, economic history

## EDUCATION

**SGH Warsaw School of Economics**, Warsaw, Poland

Ph.D. in Economics *September, 2017 - Present*  
M.A. in Economics *September, 2015 - June, 2017*  
B.A. in Economics *September, 2012 - June, 2015*

**University of California, Berkeley**

Visiting PhD student, Department of Economics *August, 2022 - December, 2022*  
(invited by Gabriel Zucman)

**University of Bonn**

Visiting student, Economics *October, 2016 - March, 2017*

**University of Groningen**

Visiting student, Economics *August, 2014 - January, 2015*

## EMPLOYMENT

**Institute for Structural Research**, Warsaw, Poland

*Research fellow* *August, 2020 - present*  
*Research assistant* *April, 2018 - July, 2019*  
Research assistant to Iga Magda  
Research assistant to Piotr Lewandowski

**University of Zurich**, Zurich, Switzerland

*Research assistant* *August, 2019 - July, 2020*  
Research assistant to Kai Gehring

**Cloud Technologies**, Warsaw, Poland

*Data scientist* *March, 2017 - March, 2018*  
Development of machine learning solutions in Big Data

## JOB MARKET PAPER

**#IamLGBT: Social Networks and Coming Out.** - with Przemysław Siemaszko

**Abstract:** In recent decades, there has been a marked increase in the number of people disclosing their LGBTQ identity. We propose a model of a game on a network with social learning to investigate the role of peer effects in coming out decisions. We use newly collected data from two waves of a spontaneous Twitter coming out campaign to empirically test the prediction that observing peers coming out increases the probability of an individual disclosing their LGBTQ identity. We estimate strong and statistically significant peer effects. We find that the spread of information about the campaign through networks does not explain the results. Instead, we argue that these effects are due to changes in beliefs about the costs of disclosure.
